- Select **Save**

# Yealink T46S Quick Reference Guide

**Star Codes** are predefined 2 digit numbers prefixed with a star \* and are an alternate method of performing commonly used features in Global PBX instead of using soft keys on the phone.

If you have available line buttons on your phone, Star codes can also be configured as speed dials. Some commonly user Star Codes are listed below.

Making Calls	
Redial	*66
Call Return	*69
